

Bangladesh registers 5 new Covid-19 cases in 24hrs

November 25, 2023

Online Desk: Bangladesh reported 5 new Covid-19 cases in 24 hours till Saturday morning.

With the new numbers, the country's total Covid-19 caseload rose to 2,046,056, according to the Directorate General of Health Services (DGHS).

The official death toll from the disease remained unchanged at 29,477 as no new fatalities were reported during this period.

The daily case test positivity rate declined to 0.76 percent and 657 samples were tested, said DGHS.

The recovery and death rates remained unchanged at 98.42 percent and 1.44 percent, respectively.
