

Rain likely on Tuesday, Wednesday

February 4, 2024

Online Desk: Light rain is likely to occur in Dhaka and southern regions on Tuesday (February 6) and Wednesday (February 7), according to Bangladesh Meteorological Department (BMD) forecast.

The night temperature may increase 1 to 2 degrees Celsius till February 6.

Meteorologists Muhammad Abul Kalam Mallik said after the rain, the night temperature may decrease.

Meanwhile, the country's lowest temperature at 9.5 degrees Celsius was recorded in Dinjapur this morning.
