

Priyanka Chopra introduces daughter Malti to the world

February 1, 2023

Online Desk: Finally, after one year, Bollywood actor Priyanka Chopra and singer Nick Jonas officially introduced their daughter to the world yesterday. Malti Marie was born through surrogacy in January of last year, and the duo has strictly refrained from releasing photos of her face to the public until recently. During a special event on Monday, the Jonas Brothers – Nick, Kevin, and Joe – were honored with a star on the Hollywood Walk of Fame.

The three singers attended the ceremony with their wives and children, Priyanka Chopra, Sophie Turner, and Danielle Jonas, and also took time to pay respect to those important to them. Fans were ecstatic to see pictures and videos of Malti and the family together. The “Quantico” star sat a row behind Nick Jonas and his brothers, with daughter Malti Marie, who turned one earlier this month nestled on her lap.

Priyanka looked stunning in a dark brown body-hugging suit, while her daughter looked lovely in an off-white tweed jacket-skirt paired with a cute headband. Priyanka tweeted photos and video from the ceremony, where Nick gave a heartfelt speech thanking Priyanka. Nick addressed his daughter and stated, “I enjoy being a dad with you. I can’t wait to come back here with you in 15 years and embarrass you in front of your friends.”
