

France to strengthen energy and transport ties with Bangladesh

November 24, 2025

Online Desk : French Ambassador to Bangladesh Jean-Marc Séré-Charlet on Sunday expressed keen interest in strengthening cooperation with Bangladesh to support the country's energy transition and develop an integrated multimodal transport system as he called on energy and road transport adviser Muhammad Fouzul Kabir Khan. "On this occasion (call on) the French envoy expressed France's interest in strengthening cooperation to support the energy transition and the development of an integrated multimodal system in Bangladesh," a French embassy statement said.

It said the envoy also discussed with the adviser about the ongoing bilateral projects in the power and transportation sectors implemented by the French Development Agency. The adviser and the envoy also exchanged views on expanding future collaboration in areas aligned with Bangladesh's development priorities.
