

SEOK Healthcare organized an exchange meeting with the Chinese hospital at the National Cancer Research Institute

April 16, 2026

Staff Reporter : On Thursday morning at the National Cancer Research Institute and Hospital (NICRH)–located in Dhaka. With its esteemed director Professor Dr. Mostafa Aziz Sumon, one of China’s top multi-specialty hospitals “Foshan Fosun Chancheng Hospital”– A brief discussion meeting of its delegation has been held.

Organized the said meeting SEOK Healthcare– Its founder and director is M. M. Masumuzzaman. At the meeting, Mr. Mushdaq Hashti, Director of Overseas Business Development, was present on behalf of the Chinese delegation, Foshan Fosun Chancheng Hospital, China.

In the exchange meeting, both parties discussed the possibility of increasing mutual cooperation in the field of cancer treatment in the future, exchanging medical knowledge and technology, and ensuring high-quality international medical support for patients.

The meeting specifically emphasized opening new horizons of cooperation in the health sector between Bangladesh and China, which can play a positive role in ensuring modern and effective medical services for the country’s cancer patients.

It is noteworthy that SEOK Healthcare has long been providing advanced medical information, advice, and support services for Bangladeshi patients through coordination with internationally renowned hospitals. In addition, through local and foreign doctors, it has been successfully organizing skill development, experience exchange, awareness seminars, etc., for local doctors, nurses, and medical professionals, and will continue such initiatives in the future.
