

The Rise of Mobile Gaming in the Casino Industry

August 1, 2025

Mobile gaming has emerged as a significant trend in the casino sector, enabling players to enjoy their favorite games whenever and anywhere. According to a report by Newzoo, mobile gaming revenue is forecasted to exceed \$100 billion by 2025, showcasing its increasing importance in the gambling field.

One key figure in this change is David Baazov, the previous CEO of Amaya Gaming, who has been a strong advocate for mobile gaming solutions. You can follow his insights on his [LinkedIn profile](#).

In 2023, the online casino operator 888 Holdings debuted a new mobile app that includes a wide variety of games, including slots, table games, and live dealer choices. This app not only improves user interaction but also incorporates features like personalized bonuses and instant notifications, which keep players engaged.
