

# Temperature may rise more in next five days

April 9, 2023

**Online Desk:** Without nor 'wester, there no possibility of rain in next few days, according to the Met Office. Mild heat wave may increase at different places across the country in the coming days.

On Saturday, the highest temperature in Dhaka was 37.5 degree Celsius while the country's highest temperature was 38.5 degree Celsius.

The Met office sources said the temperature may rise in the next five days and heat wave to continue in 40 districts through out the week.
