

Traffic movement resumes on New Market road

April 16, 2023

Online Desk: Traffic movement has resumed on the New Market road a day after a fire broke out at the New Super Market. As the fire was successfully extinguished earlier, regular movement of vehicles began from 6:00am today, said a police official.

Police officials said the surrounding roads needed to be closed to ensure the fire extinguishing task was carried out without hindrance. Vehicle movement was halted from Science Lab to Home Economic College since 6:00am yesterday.
